

TX EXPLOSION-PROOF TUBULAR HEATERS

What is an Explosion Proof Tubular Heater?

An ATEX rated finned tubular heater that provides space heating or frost protection when hazardous dust/gas may be present. These are most commonly installed in petrochemical installations, spray booths and storage areas.

Key Features

- ATEX certified
- Equipment protection level Gb (gas) and Db (dust)
- Zones 1, 2, 21, 22 Groups IIC (gas), IIIC (dust)
- Temperature Class T3 (maximum ambient 40°C)
- IP66 rating
- Steel construction with grey epoxy finish
- Sturdy mounting feet for wall or floor mounting
- Optional zinc plated safety guards (open ended)

Energy Saving Tip

If suitable for your application, control with an energy saving TXST-01 thermostat.
